

# Solving Park Problems with Technology

## Problem #1: Sunscreen Problem

### **Problem:**

- Kids don't know when to put on sunscreen during the day. Kids are getting sunburnt after playing outside and forgetting to put more sunscreen on!

### **Your Job:**

- Use technology to create a way to remind kids when to put sunscreen on while they are playing outside

### **Need Some Ideas to Get Started?**

- Ipad station
- Technology on monkey bars or slide that tells you when to put sunscreen on
- Robot that walks around park

## Problem #2: Kids Get Bored

### **Problem:**

- Kids are getting bored while playing in this wide open field.

### **Your Job:**

- Use technology to create games for kids to play outside so they don't get bored.

### **Need Some Ideas to Get Started?**

- Robot to play soccer with you
- Ipad station with suggestions of games
- Robot that will deliver any piece of equipment to you (ask the robot for a basketball, and he will find one and bring it to you!)
