Teacher Key

1. What is a solar eclipse?

A solar eclipse occurs when the moon moves between the earth and the sun and blocks the view (either totally or partially) of the sun from Earth.

2. Draw a picture of the position of the sun, moon, and earth during a solar eclipse. Add lines to show the shadow of the moon falling on the Earth.

3. What are two things that people can see or feel happen during a solar eclipse?

It gets darker and cooler.
