# Public Service Announcement

A public service announcement is a message given to the public to raise awareness and change how the public feels about an issue. For example, a public service announcement may be made to bring awareness to how hurtful bullying is or to inform the public of a disease that is spreading throughout the country.

Create a Public Service Announcement to inform the public about your newly designed contact lens! Then, create an informational pamphlet to give to people who would like to learn more about about the topic. Plan your Public Service Announcement and pamphlet below.
