Teacher Key

1. Use the picture to answer the questions below.

A. Which animal pictured would survive the best in this environment? Why?

The monkey because this is its natural habitat. There are plenty of trees for the monkey to climb and food for it to eat.

B. Which animal pictured would have to adapt a bit to survive in this environment?

The prairie dog would have to adapt in order to survive. The prairie dog's habitat is typically in grasslands. With some adjustments it could be possible for the prairie dog to survive.

C. Which animal pictured is unable to live in this environment?

The dolphin because they live in the ocean and are unable to survive on land.
