Teacher Key

1. Describe an obstacle to voting that occurred in the past.

Black people, women, and Native Americans were not allowed to vote until Constitutional amendments were passed in the 1800 and 1900s.

2. Describe a current obstacle to voting.

Long voting lines; decrease in polling stations; polling stations are only open during certain hours, government ID requirements, only English language voting ballots available.

Answers may vary.

3. How can an app developer help overcome voting obstacles. Give an example.

App developers can create apps that give people ideas on how to overcome voting obstacles. For example, an app developer could create an app that reads voting ballots aloud to someone who is hearing impaired.
