Teacher Key

1. Describe the difference between a claim and a fact.

A claim is an argument that people may or may not agree with. A fact is a widely accepted piece of information.

2. Give 1 example of a way in which women contributed to the success of the American Revolution.

Answers will vary. Women helped make weapons, women held meetings about how to fight against the British, women fought in battles.

3. "Women were just as responsible for winning the Revolutionary War as men were."

Explain if this is a claim or fact.

This is a claim. This is a claim because some people may or may not agree with it. There is a lot of evidence suggesting that women were just as important as men.
