

Important Job to Be Completed

Dear Park Ranger,

We have an important job for you! We need you to design a new garbage can to go in the park. Right now, bears are knocking down garbage cans. This is a problem because the bears will eat the garbage and get sick. We need you to design a new garbage can that bears won't be able to knock down and open.

Your responsibilities include:

- Design a trash can that a bear won't be able to open or get into.
- Create a name for the trash can and put it on the front of the trash can.
- Design a sign that tells people why they shouldn't leave trash on the ground.

Thanks for your help! We know we can count on you!

- National Park Team
