

Curious Kids School

Curious Kids School is opening in your neighborhood! You will be in the principal of this new school. Today, you will read about 3 new types of equipment that can be added to the school. You will choose 1 to add to your school. Then, you will write a set of rules for teachers and students about how to use the equipment.

Step 1: Read about each type of equipment. Then, circle which one you want to add to your school.

Rock Climbing Wall

A rock climbing wall will be put in the lunchroom. It is your job to decide which rules students and teachers will have to follow so everyone stays safe and has fun.

Sharing Stations

A sharing station is a place where kids can share books or toys. A sharing station can be located inside or outside. Kids and teachers can put items in the sharing station. Then, other kids can come borrow the books or toys and return them when they are done. It is your job to make a list of rules about using the sharing station.

Buddy Bench

A buddy bench goes outside near a playground. The bench is a place where kids can meet other kids. If you don't have someone to play with at recess, you can sit on the bench. Then, another kid will come up and ask you if you want to play. It is your job to make rules about using the buddy bench.

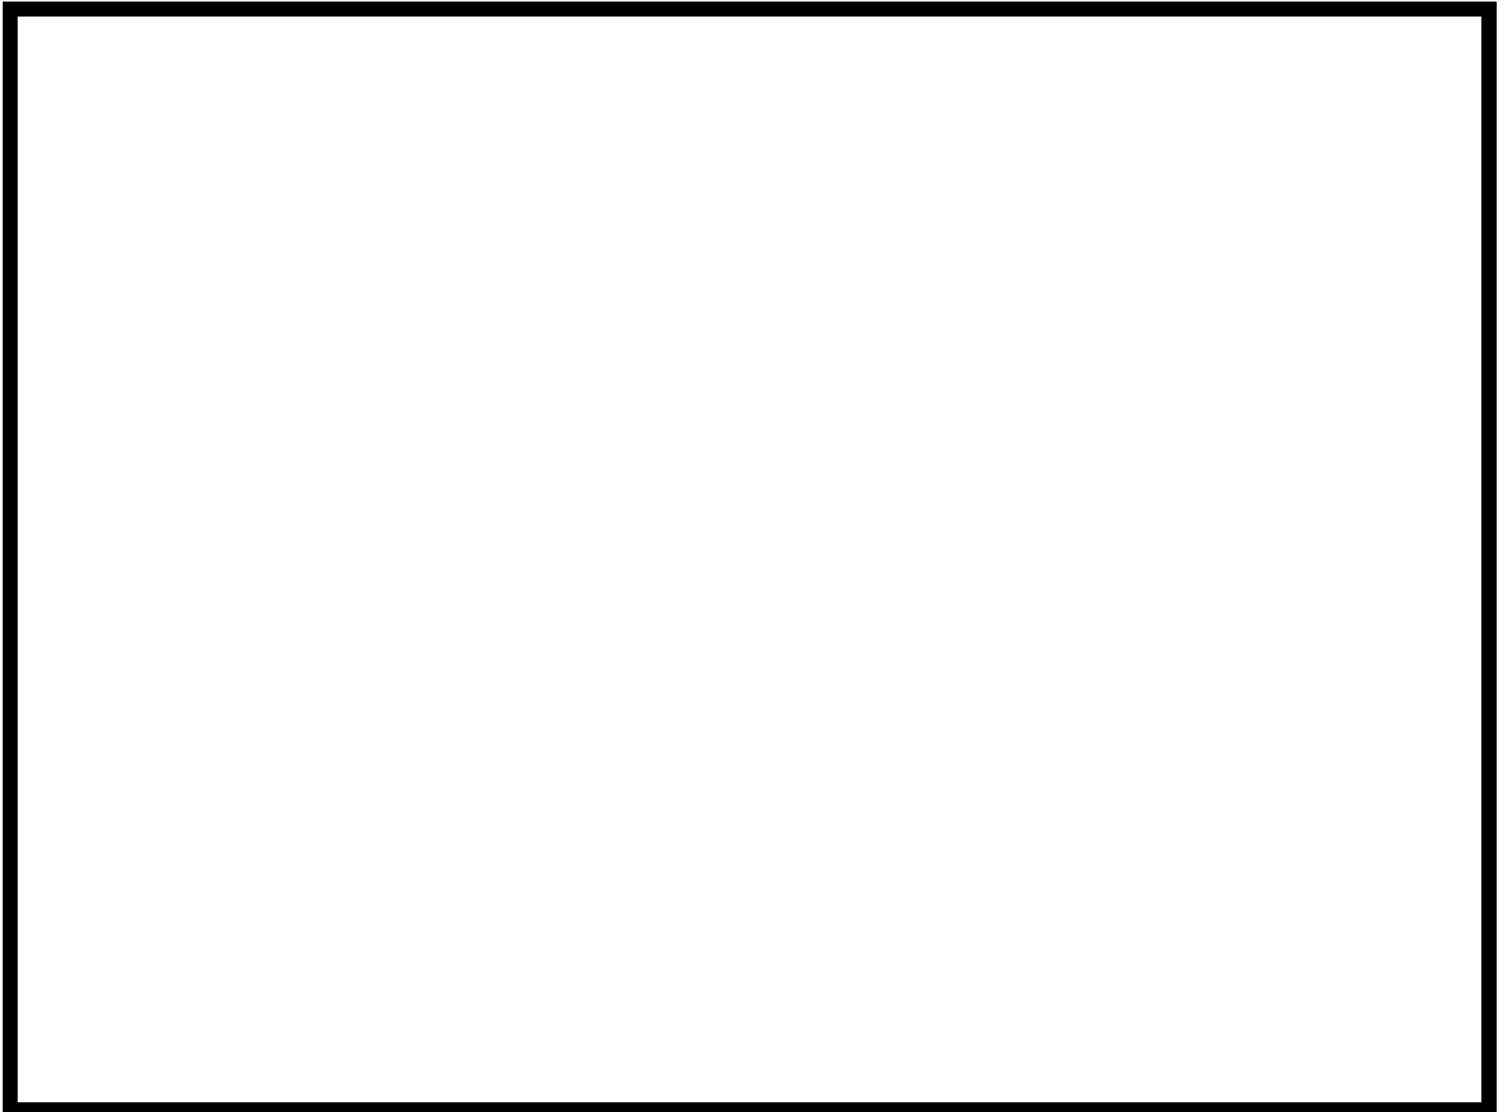

Step 2: Fill out the next page to describe 3 rules that teachers and students will have to follow when they use your equipment. Draw a picture of each rule. Then, write a description.

Curious Kids School

Rule #1

What is your rule? Write your rule below:

Draw a picture of your rule below:

Step 3: Build a prototype of your equipment. A prototype is a small example of what something will look like. Use art supplies to build your prototype.

Extra time? Write a list of 3 consequences that people will face if they don't follow the rules.
