

Examples of Constellations

**Name of Constellation:
Pegasus**

This constellation was named after a horse with wings.

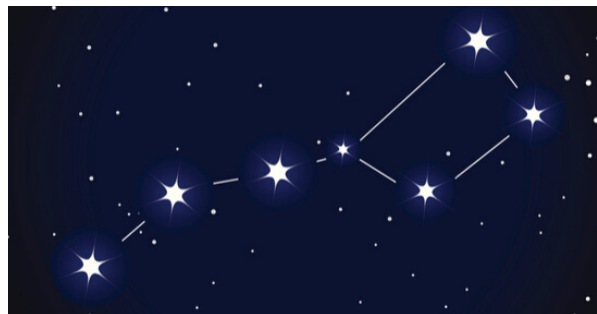

**Name of
Constellation: Cassiopeia**

This constellation was named after a queen.

How to Create a Constellation

Step 1: Choose a constellation to make. You can choose one that you saw in the examples or you can design your own. If you design your own, you will decide what shape your constellation will look like.

Step 2: Build your constellation. Use the marshmallows as stars and the toothpicks as lines connecting the stars.

Step 3: Name your constellation. Write the name on your nameplate your teacher gives you.

Nameplates

Directions: Cut out a nameplate for each student.

Meet my constellation!

Its name is:

Meet my constellation!

Its name is:

Meet my constellation!

Its name is:

Meet my constellation!

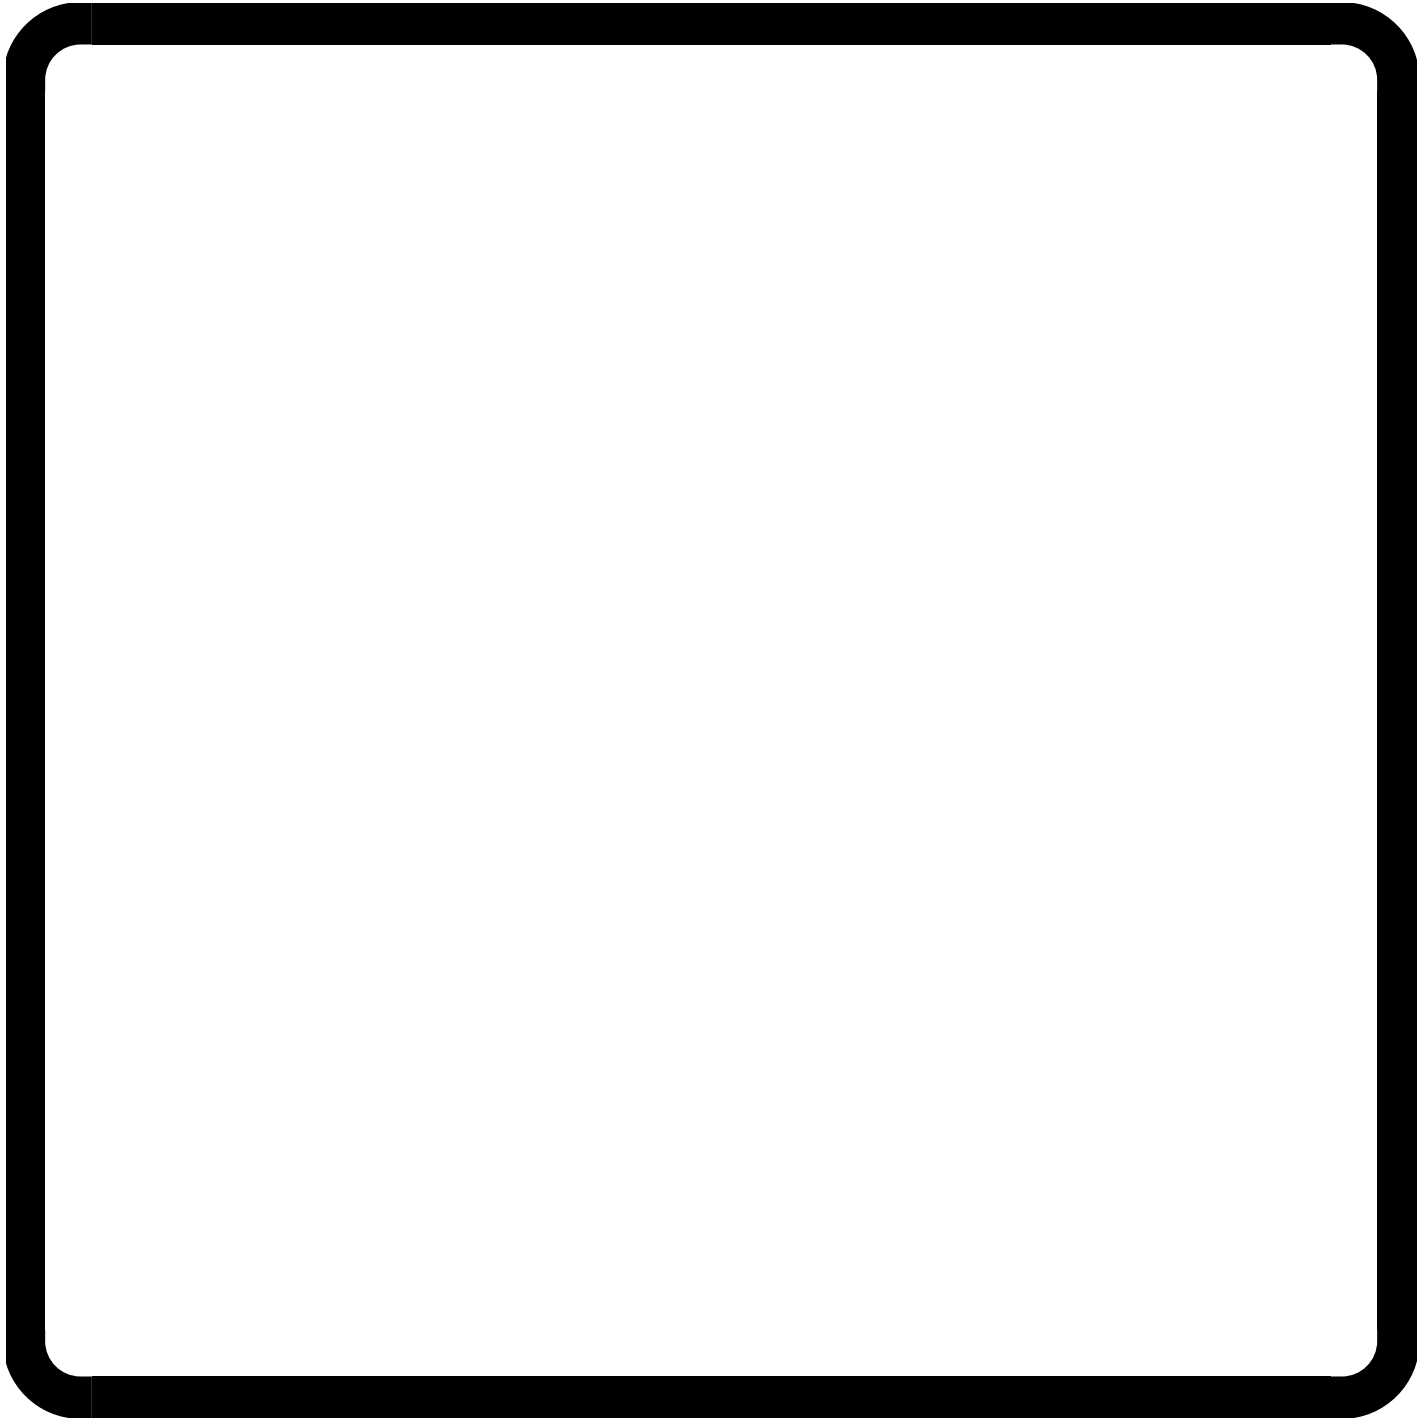

Its name is:

Name: _____

Observation Sheet: Drawing

Directions: Draw a picture of one or more constellations in the sky!

Name: _____

Observation Sheet: Writing
