

## Archaeologists and Artifacts

Archaeologists look at artifacts to learn about what life was like a long time ago. An artifact is an object.

Take a look at these four artifacts. What do you think they tell us about people who lived a long time ago?

These artifacts can teach us about languages people spoke, how they cooked meals, and what games they played!

# Underwater Caves

## Creating Artifacts

Your group will choose a person who the artifacts belong to. Choose one person from the list. Circle your choice.

**Elementary  
School Kids**

**President of  
a Country**

**Doctor**

**Artist**

Write or draw 4 artifacts that could have belonged to the person or you selected.

## Artifact Log

### Artifact #1:

Draw a picture of the artifact:

What do you the artifact was used for?

### Artifact #2:

Draw a picture of the artifact:

What do you the artifact was used for?

# Artifacts in Underwater Caves

## Artifact #3:

Draw a picture of the artifact:

What do you the artifact was used for?

## Artifact #4:

Draw a picture of the artifact:

What do you the artifact was used for?

Who do you think the artifacts belonged to? Circle your choice.
