

Weather and Houses

Houses have to survive lots of different weather!

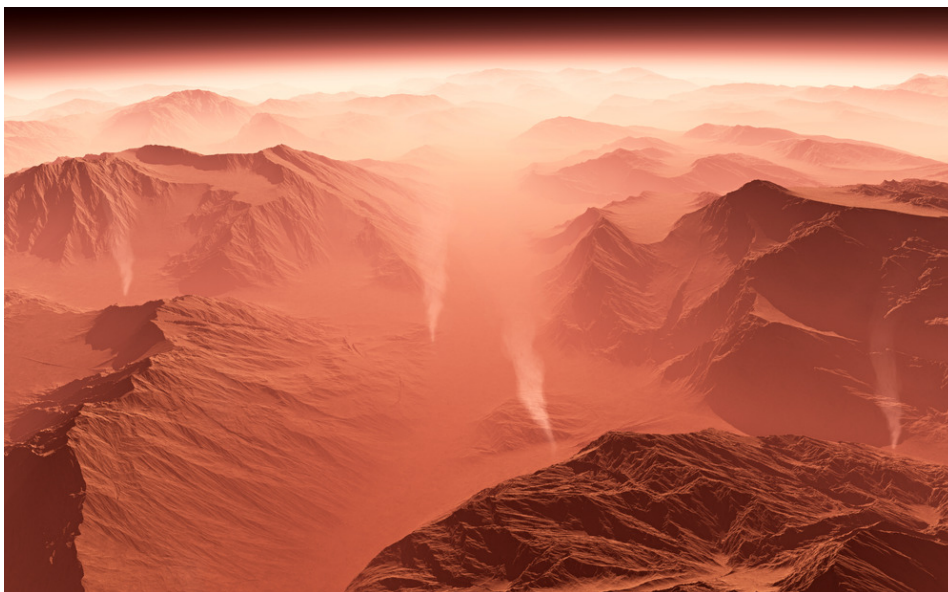

Mars

Mars is the fourth planet from the Sun. It is known as the red planet.

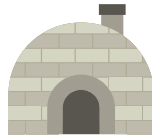

Weather on Mars

Mars has a lot of mountains and is very dusty. It is known for having very big storms.

Steps to Design a House on Mars

- **First, choose a shape. (Circle your choice)**

- **Next, draw your plan. Your house must survive temperature changes, wind, and dust.**

- **Build your house using art and building supplies!**
