

# Saving the Amazon Rainforest-Answer Key

## 1. Where is the Amazon rainforest located?

South America or Brazil

## 2. Is the Amazon a large or small rainforest? Explain your answer.

It is large because there are over 390 billion trees. It also spans 9 countries.

## 3. What type of human activity can harm animals in the rainforest?

Answers may vary. One example is cutting down trees. This leads to habitat loss.

## 4. Which Amazon animals eat other animals?

Jaguar and Blue poison dart frog.
