## Finding Kansas on a Map

Meet Devon! Devon is a television producer. A television producer is in charge of making new television shows. Right now, Devon is creating a new television show called “Learning about Kansas!” The show will have cartoon characters and teach kids facts about Kansas.

Today, you will help finish the first episode for the show. This episode will teach kids about finding Kansas on a map. Follow the steps below to finish the first episode!

### Step 1: Read the Beginning of the Episode

Read the script for the episode below. The script has words and pictures about what happens in the episode.

Meet Candice and Camilla! They are excited to go camping in a forest in Kansas. While they are walking, they start hearing strange noises. All of a sudden, the animals nearby start talking! They quietly listen to hear what the animals are saying.

First the bear starts talking. Bear says, “Calling all forest friends! Our forest is in Kansas, but I do not know where Kansas is located on a map! Do any of you?”

Fox says, “If you look at a map, Kansas is next to Florida.”

Deer says, “I think you guys are both wrong. Kansas is next to Missouri!”

Rabbit says, “No way! Kansas is next to California.”

Then, Owl chimes in and says, “I can show you where Kansas is on a map. May I help you?”
